

Dear Friends of Angie,

Thank you so much for your response to our plea for help in the last newsletter. Angie's Friends has gained some new support over the summer and, of course, still many loyal long time friends. We are so grateful to all of you.

Since I last wrote, there have been several adoptions, but as always there seems to be another needy dog to take an adopted ones place. Rosie, who is pictured below was adopted but returned. The successful adoptions include Scotty and J J, Sparky, Sakari and Kandy in May. Copper, George, Dakota and Birdie went for home visits but were not able to stay for varying reasons.

Here are some sweet babies that need to find their forever home:

Ricki is a miniature Pinscher who is 1-2 years old. He has been neutered, had his shots and is heartworm negative. He is an active fun little guy.

Pepe is a year old Rat Terrier who has been treated for heartworms and is neutered with all of his shots. He weighs about 10 pounds. He is quite a bundle of energy.

Sam was surrendered by his owner. He is 10-11 months old. He likes to run so he will need a fairly big yard. He plays well with others. He tested negative for heartworms. He is an Australian Shepherd.

Mason is a long haired dauchsand who was found wandering in west Dallas. He is 1-2 years old. He has been a playmate with Opie when Opie is at Angie's house. (See next)

Opie is an adorable 1 year old terrier mix who loves to play but also loves to cuddle. He will melt your heart!

Rosie is a 7-8 month old lab mix. She is spayed and heartworm negative. She was returned to Angie because the adoptive parent said she peed on the bed!

Maddie is an 8 month old boxer/dalmation mix. She is a typical puppy-full of energy and very curious. She is spayed and up-to-date on her shots. She needs lots of attention. She gets along well with other dogs.

Some Sad News:

Angie lost Miss Piggy on May 14 due to neurological problems. Miss Piggy was a Shar-Pei/pit mix who had been in Angie's care for many years. She was 12 years old. Her tail looked like a pig's tail and she talked or grunted like a pig, thus the name.

A Sad and Happy Story:

Angie got a call during the summer about a momma Chihuahua that had been hit by a car and killed. There were five, week old babies under a house. Angie crawled under the house while getting attacked by fleas to save the babies. She took them to City Vet and several of the technicians agreed to take them in and give them the bottle feedings they would need to survive. Unfortunately, one of them did die but the others are thriving.

An Interesting Story:

On September 9, Angie was out making her daily feeding rounds. She noticed a beautiful Monarch butterfly. The butterfly hovered around her and landed on her hand as she was filling several pails with water. She bent down to pick up a pail of water and the butterfly landed on her face and as Angie said, "kissed her on the mouth". She thought it was a wonderful tender moment with nature and wanted me to tell you all about it.

The vet bill remains high so again we ask if you can please help Angie help the sweet needy babies she cares for. Please share this newsletter with anyone you know who may be looking for that special companion to share their home. THANK YOU!
